

I just wanted to express my concern about keeping the AIR 1 Radio network on in my area. AIR 1 allows me to worship God on my way to school with out being bombarded with vulgarity I find on the other radio stations in my area. I feel the community would suffer a great deal if AIR 1 was removed from the air because it is God's word and you never know who is listening and how one song can affect a person's heart. This is also why I feel that AIR 1 is in the public's best interest to stay on the air. God works in many ways and music is a great way to praise and honor our father up above. AIR 1 allows anyone to do that at any point in the day. I am glad that AIR 1 is broadcasting in my area because it lifts me up when I am down and that's why I support keeping it on the air waves in my area.
